

Help prevent vehicle crime

Make sure
you're not
the next
victim

Remove all valuables including sat nav systems when leaving your vehicle, even if you will only be away for a few minutes.

Clean the suction marks from the windscreen if you have a portable sat nav.

Don't hide valuables in your vehicle - the boot or glove compartment are the first places a thief will look.

Has someone tried to sell you a second-hand sat nav system in unusual circumstances? If so, contact your local police station or call **01622 690 690** and report what has happened. You can also call Kent Crimestoppers on 0800 555 111.

You can also visit the Kent Police website **www.kent.police.uk** for more crime prevention information and details of your local police station.
